AMENDMENT OF CLAIMS

Submitted via Fax to Examiner Ruth A. Davis at:
571-273-8300

Applicant: Salubris Inc. 12 Alfred Street, Baldwin Park 1, Suite 300, Woburn, MA, 01801

Applicant No: 10/683,565

Filing date: 10/10/2003

First named inventor: Tanil Zuhtu Kocagoz

Attorney Docket No: 5873-00100

Confirmation No: 7662

Detailed action:
We seek to remedy the objections previously described by the examiner to the noted invention by amending our claims as noted below:

Claim 1 (Currently Amended). A culture medium that indicates the growth of mycobacteria by changing its original red color to yellow due to pH change created by mycobacterial growth and that identifies contamination by changing its color to green due to further change in pH by the growth of organisms of non-mycobacterial origin. , ~~comprising: a growth solution, wherein the growth solution is composed of chemicals that promote growth of mycobacteria; one or more indicators, wherein the indicators undergo a spectroscopic change when the pH of the growth solution is altered; and one or more inhibitors, wherein the inhibitors are configured to inhibit~~
